A centre of excellence of NORTH EAST SCOTLAND COLLEGE 7

FURUNO TYPE SPECIFIC ECDIS TRAINING NOW AVAILABLE

The Scottish Maritime Academy has added a new course to its portfolio:

**Electronic Chart Display & Information Systems (ECDIS)
Type Specific – Furuno**

It is suitable for personnel who have completed the ECDIS generic training - specifically for officers in charge of a navigational watch -and who now require equipment specific training. The design and user interface have been developed to provide an easy and reliable operation and to accommodate the operator with easy access to the necessary functions and data to operate the vessel safely. The software is designed to guide the operator through the various steps of planning and performing route steering.

This computer based course is delivered over two days and delegates will receive the support of experienced tutors as they work through the training units. The course is classroom based and is typically delivered on a one to one basis and is available throughout the year.

Course Content:

- Designed for candidates who have completed ECDIS generic training and now require equipment specific training. It has been designed for officers in charge of a navigational watch.
- Those attending the course should have completed the generic 5 day IMO 1.27 ECDIS course
- A minimum of 2 days using Furuno computer based type specific package and assessment. This is supported by experienced ECDIS tutors.
- 2 days. dates can be scheduled to suit availability
